## APPS FOR DEAF, HARD-OF-HEARING, AND SPEECH IMPAIRED USE

### IP-Relay & ASR — Live Captioning Phone Conversations

<p><b>INNOCAPTION</b></p> <p>Rating: 4.7/5 - Price: Free</p>   	<p>Provides free real-time captioning for phone conversations of individuals who are deaf or hard-of-hearing. Innocaption enables the user to make or receive a call, speak using their own voice, and see captions of what the other party on the call is saying.</p>
<p><b>CAPTIONMATE</b></p> <p>Rating: 3.7/5 - Price: Free</p>   	<p>A free service for individuals with hearing loss. It allows the individual to read both sides of the phone conversation instantaneously. CaptionMate works on smartphones, tablets, and all other phones, even landline corded phones. Registration is free.</p>
<p><b>CAPTIONCALL</b></p> <p>Rating: 2.7/5 - Price: Free</p>   	<p>CaptionCall Mobile allows the individual to read and hear what the caller is saying. Live captioning agents transcribe what the caller is saying, so not a word is missed. Registration and captioning are free.</p>
<p><b>T-MOBILE IP RELAY</b></p> <p>Rating: 4/5 - Price: Free</p>   	<p>Allows individuals that are deaf, hard-of-hearing, deaf-blind, or have a speech disability to place relay calls and communicate using text. Connect with a qualified relay operator T-Mobile IP Relay. The user will text what they would like to say and the operator will speak it to the caller.</p>

\*Listed price does not apply to eligible WYRED clients

<h2>CLEARCAPTIONS</h2> <p>Rating: 4.2/5 - Price: Free</p>  	<p>Free account with a personal ClearCaptions Voice phone number for captioned calls. Captions for incoming and outgoing calls, along with voicemail. A phone number is given but the user can forward it to their original number for ease of use. Available on iPhone and iPad.</p>
<h2>HAMILTON RELAY</h2> <p>Rating: 4.2/5 - Price: Free</p>   	<p>Designed exclusively for individuals who have difficulty hearing over the telephone. With this app, you may listen to your phone conversation while reading word-for-word captions of what is said. This technology is similar to captions on TV.</p>
<h2>OLELO</h2> <p>Rating: 4.2/5 - Price: Free</p>   	<p>High-quality video meetings for groups of up to 250 people. Easy access on any device by sharing a link and inviting participants. Live, real-time captions powered by Google speech-to-text technology</p>

## ASR — Live Captioning Video Phone

<h2>GOOGLE DUO</h2> <p>Rating: 4.5/5 - Price: Free</p>   	<p>High-quality video calling app that works on smartphones, tablets, desktops, and Android smart TVs. Group call up to 32 people. Leave video messages and text messages. Live, real-time captions, powered by Google speech-to-text technology.</p>
<h2>FACETIME</h2> <p>Price: Free</p>  	<p>High-quality video calling app available on all Apple devices, like Mac, iPhone, iPad, and iPod Touch. Live, real-time captioning provided by Apple speech-to-text technology.</p>

\*Listed price does not apply to eligible WYRED clients

<h2>SKYPE</h2> <p>Rating: 4/5 - Price: Free</p>   	<p>High-quality video and voice calling app available on a smartphone, tablet, and desktop. Allows up to 24 participants. Live, real-time captioning provided by Skype speech-to-text technology.</p>
<h2>GOOGLE MEET</h2> <p>Rating: 3.7/5 - Price: Free</p>   	<p>High-quality video meetings for groups of up to 250 people. Easy access on any device by sharing a link and inviting participants. Live, real-time captions powered by Google speech-to-text technology.</p>

## ASR — Live Captioning for In-Person Conversations

<h2>LIVE TRANSCRIBE</h2> <p>Rating: 4/5 - Price: Free</p>  	<p>Accessibility service built by Google for individuals who are deaf and the hard-of-hearing. Transcribe performs real-time transcription of speech to text to allow participation in conversations. It also allows the individual to type their response on the screen.</p>
<h2>BEWARNED CONNECT</h2> <p>Rating 4/5 - Price: Free</p>  	<p>Using Automate Speech Recognition (ASR), this app will transcribe in-person conversations. The app also has outgoing speech capabilities for individuals that cannot speak for themselves.</p>
<h2>GOOGLE RECORDER</h2> <p>Rating: 3.7/5 - Price: Free</p>  	<p>Recorder brings the power of search to audio recording. Meetings, lectures, band practices, family memories – anything the user wants to save and listen to later. Recorder automatically transcribes and labels what you record in order to easily find the parts that matter.</p>

\*Listed price does not apply to eligible WYRED clients

<p><b>OTTER</b></p> <p>Rating: 4/5 - Price: Free</p>   	<p>Records and transcribes in real time. Easily searchable and shareable when looking through the transcript. Use Otter for meeting, lectures, interviews, and every day in-person conversations. 600 minutes free every month.</p>
<p><b>AVA</b></p> <p>Rating: 3.2/5 - Price: Free</p>   	<p>An application that facilitates 2-way communication for individuals that are deaf and hard-of-hearing. For group conversations, invite them to download Ava. The color-coded transcript will allow the individual to know who is speaking.</p>
<p><b>EASY TALK PRO</b></p> <p>Rating: 4/5 - Price: Free</p>   	<p>This application uses voice recognition to transcribe a conversation for individuals that are deaf and hard-of-hearing. This application can work offline. Bluetooth connection with microphone devices. Save and share conversations on text.</p>
<p><b>FLIPWRITER</b></p> <p>Rating: 4.7/5 - Price: \$49.99*</p>  	<p>FlipWriter AAC delivers effective and empowering tools for adults and children with speech or hearing impairments and other complex needs. Type out what is wanting to be said and allow the device to speak with the outgoing speech feature.</p>

## Amplifying and American Sign Language (ASL) Apps

<p><b>SOUND AMPLIFIER</b></p> <p>Rating: 4/5 - Price: Free</p>  	<p>Enhances audio from the Android device, using headphones to improve listening clarity. Use the app to filter, augment, and amplify sounds around the individual and their phone. Personalize the listening experience by adjusting audio or mic settings.</p>
--	--

\*Listed price does not apply to eligible WYRED clients

<h2>PETRALEX</h2> <p>Rating 4/5 - Price: Free</p>   	<p>The individual can use their smartphone to automatically adjust to hearing specific situations, take a built-in hearing test, and four options of sound amplification. Can be used with wireless or wired headsets or earbuds.</p>
<h2>RESOUND SMART</h2> <p>Rating: 2.7/5 - Price: Free</p>   	<p>Compatible with ReSound LiNX, ENZO, and UpSmart hearing aid models. This app lets the individual control their hearing aids from the smartphone, like changing programs and more advanced sound adjustments. It can even help find misplaced hearing aids.</p>
<h2>AUTO SPEAKER</h2> <p>Rating 4/5 - Price: Free</p>   	<p>This simple application will automatically switch speaker status on/off during a phone call according to the phone position. It uses the proximity sensor to know if the phone is near the individual's ear or not. If using a headset, it will turn the speaker off.</p>
<h2>ASL DICTIONARY</h2> <p>Rating 4.2/5 - Price: \$7.99*</p>   	<p>The most complete interactive ASL dictionary app that features 5000+ words that are translated to ASL videos. Categories include time, money, dates, numbers, the alphabet, and more. Slow motion, loop, and replay video features.</p>
<h2>ASL TRANSLATOR</h2> <p>Rating 4/5 - Price: \$4.99*</p>   	<p>There are two parts to the app that includes a text-to-sign generator and ASL phrases videos. The generator uses a smart translation algorithm. Translate entire books, emails, documents, or text from the internet. Over 30,000 words recognized.</p>
<h2>ASL - AMERICAN SIGN LANGUAGE</h2> <p>Rating 4.5/5 - Price: Free</p>   	<p>Knowing American Sign Language (ASL) will enable the user to meet and interact with a whole new group of people. The app's goal is to deliver a convenient, enjoyable, learning experience that goes beyond the basics. Learn the ASL history, alphabets, numbers, common phrases in conversations and vocabulary, and more!</p>

Automatic tracking and reporting features make it easier for patients and provides to track progress.</p>
--	--

\*Listed price does not apply to eligible WYRED clients

## LOOK TO SPEAK

Rating 4/5 - Price: Free

Look to Speak is an Android app from 'Experiments with Google' which enables individuals to use their eyes to select pre-written phrases and have them spoken aloud. This eye-gaze communication technology makes smaller devices more accessible.

## OPEN SESAME

Rating 3.7/5 - Price: In app purchases

This hands-free, touch-free app will offer complete control over the device through head movements. This app is intended for individuals that cannot operate touch screen by themselves.

## ACTION BLOCKS

Rating 4.5/5 - Price: Free

Customizable buttons on an Android screen will allow the user to make a phone call, send a text message, control the lights, or any other action that Google Assistant can do in just one push. A simple way to access routine actions.

## GOOGLE

Rating 5/5 - Price: Free

Download the Google app to receive assistance from the Google Assistant with the sound of your voice. Send a text message, make an outgoing call, check the weather, and more by asking Google with outgoing speech.

## SIRI

Rating 4.5/5 - Price: Free

An intelligent assistant by Apple that assists with everyday tasks, like making outgoing phone calls, send text messages, schedule meetings, and more using outgoing speech of the user.

## ASSISTIVE TOUCH

Rating 4.6/5 - Price: Free

Assistive Touch is an accessibility feature on both Android and Apple devices. The quick access menu allows the users to access functions quickly and easily if they have limited dexterity and/or mobility.

## Safety Apps

<p><b>SNUG SAFETY</b></p> <p>Rating 4.2/5 - Price: Free</p>   	<p>A free account that is established for daily check-ins for individuals living alone. If they don't check-in by their selected daily time(s), a Snug dispatcher will call to check on them or a message will be sent to the emergency contacts listed for the user.</p>
<p><b>PERSONAL SAFETY</b></p> <p>Rating 3.7/5 - Price: Free</p>  	<p>An app designed for Google Pixel phones that helps individuals stay safe and connected to their emergency contacts and first responders. Share real-time location and set up daily times for your phone to confirm if you're safe. If not responded to, information is automatically shared to emergency contacts.</p>
<p><b>NOONLIGHT</b></p> <p>Rating 4.2/5 - Price: Free</p>   	<p>This safety app uses technology to get emergency help to the exact location with a push of a button. When the button is released, it will have the individual put in a 4-digit pin. If they do not, the local police will be notified of the location and emergency.</p>
<p><b>FALLSAFETY HOME</b></p> <p>Rating 4.1/5 - Price: Free</p>  	<p>The most comprehensive fall detection app designed to provide peace of mind, as it monitors the location in the background in case of an emergency. The fall is detected through an Apple Watch and the user's heart rate. When a fall is detected, the user can push a panic button to say whether they are okay or not. Must have an Apple Watch.</p>
<p><b>LIFE 360</b></p> <p>Rating 4.6/5 - Price: In App Purchases</p>   	<p>Protect and connect the people who matter most with comprehensive safety features, including a wide range of all-new services. This can include advanced location sharing, SOS to send a silent alert with your location to emergency contacts, 24/7 emergency dispatch, Family Safety Assist, and more.</p>
